READY FOR WINTER? MAKE THE POOL SMART AT THE SAME TIME.

When winterising the pool, you are already on site. It is the ideal moment to install Bluematic Plug & Play at your customer's pool. This helps protect the installation during winter while allowing you to continue monitoring it easily afterwards.

**AUTOMATIC
FROST PROTECTION**

100 % PLUG & PLAY

REMOTE MONITORING

WHY INSTALL IT NOW?

You are already on site at the technical installation

The perfect retrofit opportunity for existing pools

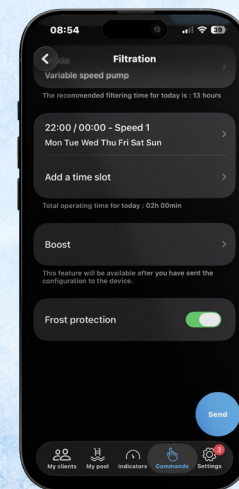

Better service and improved follow-up for your customer

**SCAN & REQUEST YOUR
PLUG-AND-PLAY SOLUTION**

Fill in the questionnaire and we'll set everything up for you in advance.

01

AUTOMATIC FROST PROTECTION

Bluematic features temperature-controlled frost protection via PoolCommand VS2. This helps keep the installation protected when temperatures drop. A smart additional benefit during the winter period.

02

100% PLUG & PLAY

You complete one questionnaire. We configure everything in advance. Only four simple steps remain to be carried out at the customer's site.

Connect the Bluematic Wi-Fi module to the customer's router

Plug the LoRa antenna into a power socket

Power the PoolCommand and connect the wires

Plug the Homey Energy Dongle into the P1 port

03

PROFESSIONAL MONITORING

With My Pro, you remain connected to your customer's installation after commissioning. Ideal for faster diagnostics, adjusting settings and providing more efficient remote service.

- Remote access for the pool professional
- Analyse problems faster
- Fewer unnecessary site visits
- Better service after commissioning

WINTER PRODUCT

PROPERTIES

Blueplus Winter helps keep pool water stable during winter and makes spring start-up easier. It combats algae and limescale and has a disinfecting action.

CAUTION!
